4. Gen. Carter indicated to the DCI that Leo Geary said that considerable pressure was being put on everyone in the Pentagon to surface the OX. At this point, the Director said he had talked to the President about this. The President said, "I will make the decision." The DCI said to Gen. Carter, "Quickly finish your paper on surfacing so we can have a meeting with Fubini and McMillan to obtain agreement on how surfacing would be effected if such a decision is made." DCI indicated that he considered this his responsibility to advise the President on.
